For many years, the Bludener Schlosspark has been one of the insider tips when it comes to unique oases of peace in the middle of the city.

The park at the foot of the district capital Bludenz is considered an insider tip. An oasis of peace for the population and for all visitors in the heart of the city. Via the easternmost Schlossberg staircase, you enter the idyllic castle garden through a forged gate.

During the day, the park is open until dusk in the summer months. The park is not accessible at night.
