 Bundesstraße 59, 6754 Klösterle am Arlberg

The Wäldletobel bridge offers a fantastic view over Klösterle am Arlberg and the surrounding mountains.

One of the impressive engineering structures of the Arlberg Railway that has generated attention far beyond the region is without doubt the Wäldletobel Bridge. It is an impressive testimony to the craftsmanship along this railroad line, for which Trentino masons in particular were responsible. In the area of the bridge was the former railroad station for the village of Klösterle. Today, an educational hiking trail can be walked here, which also leads into the impressive Wäldletobel Gorge.
